SIMS Parent App & SIMS Pay

Dear Parent

Please note the following updates, by our service provider Capita, to your SIMS Pay & SIMS Parent App services;

"We are pleased to announce that Parents can now use their existing accounts in SIMS Pay to access SIMS Parent App without being invited again. If you registered for SIMS Pay you can use the same account details to login to SIMS Parent App. For example, if you opted to register for SIMS Pay using your email account, you can now use your email details (email address & password) to login to Parent App. There is no need to apply for an invitation or new code for Parent App, simply login with the information you provided for Sims Pay registration".
10 February 2020

This is aimed at making the registration and logon process much easier. We would advise that if you haven't already registered for Parent Pay that you so now. (See School website for details)
By registering for Sims Pay you can then use the same login details for SIMS Parent App to access your daughter's reports and associated information.

SIMS SIMS Pay
