

18 October 2017

I am delighted to inform you that we will be launching a secure online service, called SIMS Parent App which will enable you to see accessible information about your child where and when you need it, in real time.

This service is designed for use by all parents/legal guardians and you will be able to access the information remotely, through a PC, or mobile devices such as laptops, tablets and smartphones.

You will be able to see information on your child's attendance and punctuality, achievement and behaviour points and assessment reports and see what lessons they have each day.

Key benefits

- Real-time information on your child's progress available 24/7 - secure online access to real-time data ensures parents and students are working together to the same goals.
- Gives parents instant access to their child's achievement, progress and attendance information.

We believe the SIMS Parent App can improve how we share information with you and help you support your child.

If you wish to sign up for this service and receive your unique username and password, please sign and agree to the **SIMS Parent App Acceptable Use Policy** and **complete the Parental Access Request Form**.

**We require BOTH forms for your account to be activated and if both parents require access – we need 2 signatures.** These should be returned to the school by **Friday 20 October 2017**.

Your daughter will receive a printed copy of the forms this week.

If you do not wish to register for this app, please complete the appropriate section on the form or our records.

Sincerely

Mrs V Donnan  
E Learning Coordinator
