Learners' achievements celebrated

THE achievements of a number of top local school students were recognised at last Tuesday's (1st) 2018 Celebrate with CCEA awards ceremony.

The **Council for the Curriculum Examinations and Assessment (CCEA)** welcomed more than 400 guests, including parents, principals and teachers, at the Titanic Belfast to celebrate

the outstanding achievements, dedication and commitment of the award winners in their **CCEA** examinations.

Fifty six schools and colleges were represented at the ceremony with awards collected for 52 different **CCEA** qualifications.

Among the recipients were Meghan Minnis from Glenlola Collegiate who collected an award for chemistry; Bangor Grammar pupils Archie Arran and Michael Cameron who received awards for drama

and physics respectively; and Tom Myles of Regent House School, Newtownards, who was recognised for his achievements in physics.

CCEA's chief executive, Justin Edwards congratulated the learners for their achievements saying, "This is an occasion where the spotlight shines on many learners' accomplishments. At **CCEA** we recognise that educational achievement may be found within a broad range

of abilities and subject areas.

"**CCEA's** vision is to enable the full potential of all learners to be achieved and recognised and this is very much at the heart of today's award ceremony. I'm delighted that we're able to celebrate the diversity of our learners as well as their hard work, perseverance and personal success.

"Well done to all of our winners, and to all of the people who have played their part in their success."

Meghan Minnis from Glenlola Collegiate School with Justin Edwards. Meghan was top candidate in GCSE chemistry.

Tom Myles from Regent House School, Newtownards with family and Margaret Farragher.
