

Application for Careers Guidance - Online Form Testing March 2019

During Year 12 you will be offered at least one face-to-face careers guidance interview with a professional careers adviser. The purpose of the careers guidance interview is to help you consider your career options and make informed, suitable and achievable career decisions.

Before the interview you will need to complete an Application for Careers Guidance form. Your school has been selected to test an online version of the form. You can access this form by clicking the link below, and you can complete the form on a PC, laptop, iPad/tablet or smartphone.

The application form helps you to think about the things that are important when planning your future career. The information will be used by your careers adviser in the careers guidance interview to help you plan your next steps.

Before completing the form, you may wish to discuss your career plans with your parents/guardians or your careers teacher in school.

Click on link below to complete application form:
