

1 April 2019

Dear Parent

The Department of Education had been in contact to advise that the Safeguarding Board for NI (SBNI), has been developing an e-Safety Strategy for Children and Young People.

The draft strategy is currently open for consultation, and SBNI are keen to encourage responses from young people and parents/carers.

All the documents are available on the SBNI website www.safeguardingni.org/esafetyconsultation including links to an online survey and a children and young people's version.

The consultation seeks views on how all children and young people in Northern Ireland can, as far as possible, be kept safe and secure online.

If you wish to find out more, please follow the link about how to get involved.

Yours sincerely

A handwritten signature in black ink that reads 'W E Thompson'.
