

7 December 2020

Dear parent/guardian,

As we approach what has been perhaps the most challenging term that any of us can remember, I want to thank you for the support you have given. Each and every day has presented new challenges and you have helped the School to function as normally as it can by encouraging your daughter to play her part in adhering to Public Health guidelines. I am proud to say that our pupils have done so admirably, showing care and consideration for others.

I also want to express my gratitude to the staff who have, on a daily basis, shown just what a committed, determined and resilient group of professionals they are. Our governors too have continued to give of their time, energy and expertise and I thank them for their ongoing support.

Please note one change to the arrangements set out in the recent message regarding end of term - **the last day of term, Friday 18<sup>th</sup> December, will be a non-uniform day.**

I think it is fair to say that everyone has earned the forthcoming break and I wish you all a restful, peaceful and healthy Christmas.

WE Thompson
