Parent Study Skills Information Evening!

Getting Your Child Study Ready

Are you a parent of a student undertaking their GCSEs? Then this evening is for you!

Join us on **Thursday 14th March at 7pm to 8:30pm** to learn how you can fully **SUPPORT, MOTIVATE** and **GUIDE** your child(ren) when studying.

The session will be delivered by Paul Gray from Learn Spark and will explore areas, such as:

- Helping them manage their study time effectively.
- Creating a focused study environment, free from distractions.
- Working with them to strengthen their understanding and memory through effective notetaking.
- Helping them manage their stress levels & remain resilient.

Paul is an educational consultant and trainer with 28 years' experience having worked for CCEA, EA and as a classroom teacher. You are sure to have a fun and enjoyable evening whilst learning a lot!

This is a great opportunity, and we would encourage everyone to take part.
