

February 2026

## Year 10 GCSE Subject Choice Form

Dear Parent/Guardian,

Over the past number of weeks, there have been several events to support your child in making their decisions for GCSE subject choices. You have also been provided with a link to the GCSE Subject Choice book. We hope you have found these beneficial.

Please use the link below to nominate your child's GCSE subject choices. These will be the final subject choices which School will use to create the curriculum offer and timetable for 2026-27. You should select:

- One Science
- Four optional subjects your child would like to study
- The Religious Studies option
- If your child would like to study Further Mathematics

We encourage pupils to choose subjects they enjoy and in which they demonstrate a clear aptitude. We aim to offer as much flexibility as possible to ensure individual needs are met. Following the Subject Choice Interviews in January, your child may have been advised to follow Pathway Option 2 or 3. This recommendation is based on a detailed analysis of available data alongside the professional judgement of school staff.

We will try to provide the combination of subjects chosen by pupils, but we cannot guarantee that this will happen. If there are timetabling difficulties with a chosen combination of subjects or insufficient pupil numbers, it will be necessary to discuss this with pupils and for them to revise their choices.

The deadline for completion of this form is **Wednesday 25 February 2026**.

We are always available to speak to if you require further guidance and we wish you all the best in selecting your GCSE subjects.

Yours sincerely,

Dr C Larmour  
Vice Principal

Mrs L Walker  
Acting Head of Careers
